Hi Sean and Davis,

We completed fish tissue sampling. We caught four fish at six locations today, that were all attempted for the third time. We caught fish at SMB-071 (RM 9.2W), SMB-082 (RM 10.65 E), SMB-102 (RM 13.4 E), and SMB-113 (RM-15.6). We attempted fishing at SMB-080 and SMB-110 but were unsuccessful. Please see the attached photos for details.

Photo 1: Traveling under dock to fishing location for SMB-071

Photo 2: Measuring fish SMB-071.

Photo 3: SMB-082

Photo 4: SMB-102 (Note lesions near mouth)

Photo 5: SMB-113 (Note lesions near tail)

Please let me know if you have any questions.

Sincerely,

Joe Guggenberger, PhD, PE
